

# \$uicideboy\$ - Mount Sinai Lyrics

Joe smoking motherfucker

Don't come around me with no vape

Got your bitch under the covers sucking on me like a bae

It's the hero of the dark but I don't ever wear a cape

Take a Bic and then I spark until the blunt evaporates

There ain't no debating \$uicide

Two deep when I ride

Ruby getting high off of the pills that I supply

Just cruising by on flat tires in an '06 Chevy

Looking like I'm Bloody Mary sipping codeine and berry

I'm Donnie Darko when I spark up and I'm creeping like Frank

Raising that choppa right at your face then after that I go blank

'Cause \$lickity of the hinges, with syringes shooting up my veins

Rather be left alone

I don't care to know your name hoe

Pull up in a Lamborghini just so you can see me

Swerve into a telephone pole, my skeleton broke

Pirellis smoke and burn

Put my ashes in a blunt and light the front

Your vision's blurred

You might just learn how Ruby da Cherry has seen the world

Watch me flex like I'm in the next life

Bitch I was next in line for heaven but then I ingested a double cup full of that fucking insecticide

Insects inside my dead body

Ironically, after Oddy was identified possibly

Gotta be specified 'cause the weather was intensified

Dragging the lake

They made a mistake because Yung Plague was recognized

The sun turned black

The sky replaced by the face with giant reddened eyes

Christ cannot compare

He cannot say we breaking bread and wine

\$uicideboy\$ can relate to the revelations because we dead inside
