

LED digital display water thermometer

< Operating manual >

Installation Instructions

Easy to install, no tools are needed to install it, it needs to be connected Between the outlet and the bath hose

Do not use hardware tools, including wrenches, during installation, as this may cause damage to the product.

The correct installation method is to first put the rubber ring into the nut, then connect the faucet, hand tighten the nut, and then rotate the body on tight. Remember not to use any hardware tools!

Product parameters

Name	LED digital display water thermometer
Product Model	LZD-R8 Pro
Product color	Silver
Battery type	2 AAA size alkaline batteries (not supplied)
Working temperature	5°C~60°C
Working Humidity	5%-80%RH
Rated Voltage	3V
Low voltage alarm	1.6v
Product Material	ABS (plating), PC
Nut Specification	National standard 4 points (1/2 inch)
Temperature range	5°C-85°C (41°F-185°F)
Measurement error	±0.5°C (±1°F)
Measurement Accuracy	0.5°C (1°F)
Product Size	9*10.3*5cm
