

# ATTENTION

**REDKEY MUST BE ACTIVATED AND UPDATED ON  
A SUITABLE WINDOWS PC BEFORE FIRST USE:**

**Download the 'Redkey Updater' App to get started:**

**[tinyurl.com/redkey123](https://tinyurl.com/redkey123)**

## 1. PREPARE

- Download & open the App (As per link above)
- Insert Redkey to a spare USB Port
- Wait for the updater to recognize the key...
- [Select] the device

## 2. ACTIVATE

- Fully open the product packaging
- Find the 20-digit activation code
- Select [Activate] & enter the correct code
- Activation complete

## 3. UPDATE

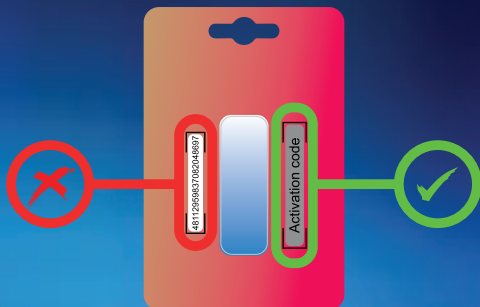

- Select [Software update]
- Choose server & update will start.
- Update will take several minutes to complete.
- Redkey primed & ready. Safely remove hardware.

In order to utilize our software, you must agree to the terms and conditions stated in our End User License Agreement. If you do not accept these terms, you are not allowed to install or use the software. The activation process is a one-time event, but updates are unlimited. Attempting to activate the software more than once is not allowed. There are two versions of the Redkey Updater App available - 64Bit and 32 Bit. If you experience any problems during activation, try the alternative version of the updater as it may work better on certain computers. Alternative download direct website link: <https://redkeyusb.com/pages/activate-update-software>
