The Stratton Mountain Resort Responsibility Code:

Snowsports can be enjoyed in many ways. You will see people using alpine, snowboard, telemark, cross country

and adaptive equipment. Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing and snowboarding that common sense and personal awareness can help reduce. Observe the code and share with others the responsibility for a great mountain experience.

KNOW THE CODE. IT'S YOUR RESPONSIBILITY

1. Always stay in control. You must be able to stop or avoid people or objects.
2. People ahead or downhill of you have the right-of-way. You must avoid them.
3. Stop only where you are visible from above and do not restrict traffic.
4. Look uphill and avoid others before starting downhill or entering a trail.
5. You must prevent runaway equipment.
6. Read and obey all signs, warnings, and hazard markings.
7. Keep off closed trails and out of closed areas.
8. You must know how and be able to load, ride and unload lifts safely. If you need assistance, ask the lift attendant.
9. Do not use lifts or terrain when impaired by alcohol or drugs.
10. If you are involved in a collision or incident, share your contact information with each other and a ski area employee.

Complementing the Responsibility Code, #RideAnotherDay promotes 3 actions every skier and rider can take to help keep themselves and those around safer on the slopes. These three actions are:

1. BE READY

Be ready to slow down or avoid objects or other people at any time. Ski and ride in such a way that you are always able to control yourself regardless of conditions and avoid others and objects you may encounter on the run, groomed or otherwise.

2. STAY ALERT

Stay alert to what's going on around you, especially other skiers and riders. Being aware of those around and changing conditions will help you have a fun and safe day on the hill.

3. PLAN AHEAD

Ease up at blind spots, check uphill when merging onto trails, and give other skiers plenty of room when passing. Look out for spots on the run where traffic merges or you can't see what's coming next. If you are unfamiliar with a run, take it easy the first time down it and make note of places where you'll want to slow down, such as cat tracks and rollers. Also, give other skiers and riders lots of room, especially if you are passing them. There's plenty of space out there, so there's no need to crowd each other.

By doing these three things every run, you'll be helping keep the slopes safe and enjoyable, for you and everyone else.
