

Vorlesungsankündigung WiSe 2019/20

## **"Planning and Conducting a Psychology Experiment"**

(2 SWS, fakultativ)

*This seminar is delivered in English!*

### **Description:**

In this seminar, we will introduce the key skills and knowledge required for quantitative research in neuropsychology. Through active group discussion and practical work, we will explore the nature and principles behind various stages of empirical research. Students will gain hands-on experience in designing and programming an experiment (using the Psychophysics Toolbox), as well as analysing and interpreting data. This seminar serves as an ideal complement to the curriculum and is open for everyone: prior experience is not required.

### **Time:**

Thursdays 15:15 – 16:45 (first seminar on 17. October 2019)

### **Location:**

Library Seminar Room, Max Planck Institute for Human Cognitive and Brain Sciences, Stephanstraße 1a, 04103 Leipzig

### **Enrolment:**

Please register by sending an email to Vincent Cheung ([cheung@cbs.mpg.de](mailto:cheung@cbs.mpg.de)) no later than 16. October 2019
