

# Razer Blade Stealth EC Updater Procedure

**Warning:** Save all your data and close all applications before running this utility.

1. Ensure your Blade Stealth is plugged in and connected to external power.
2. Download the file “Razer\_Blade\_Stealth\_ECv62.zip”
3. Right click and extract “Razer\_Blade\_Stealth\_ECv62.zip” file to your local hard disk.

4. Open the extracted folder and double click on “FlashEc” and follow any on screen prompts.

5. If User Account Control window pops up click yes.
6. EC will be updated in command prompt and system will restart.
7. If you encounter any Windows Recovery Prompts, click on “Restart my PC”.
8. Once restarted you are good to go.
