

# Bad Omens - Artificial Suicide Lyrics

Soaked in the neon glows  
Silver forked tongues talking to you in the digital snow  
A glitch in the chain, a loop in the brain  
You wanted to break, but you still wanna play the game

Well we're not gonna be a commodity  
Not another maggot in the feed that you're gonna eat  
Motherfucker, you can try  
Artificial suicide

Eye for an eye, a tooth for a tooth  
Lighting Molotov's for the broken youth  
Can you hear me through the white noise, friend?  
A cheers to the life you don't get to choose  
Another Anti-Christ on the evening news  
Can you hear me through the white noise?  
Can you hear me through the white no-?

We're not gonna be a commodity  
Not another maggot in the feed that you're gonna eat  
Motherfucker, you can try  
Artificial suicide

We're not gonna be a commodity  
Not another maggot in the feed that you're gonna eat  
Motherfucker, you can try  
Artificial suicide

You hate the shape when you have to see  
an unfamiliar face on an all black screen  
Can you hear me through the white noise, friend?  
Repeat the phrase they force you to read  
"If I wanna be great, I don't wanna be me"  
Can you hear me through the white noise?  
Can you hear me through the white noise?

Can you hear me?

Can you hear me through the white noise?

We're not gonna be a commodity

Not another maggot in the feed that you're gonna eat

Motherfucker, you can try

Artificial suicide

We're not gonna be a commodity

Not another maggot in the feed that you're gonna eat

Motherfucker, you can try

Artificial suicide
