

1st March 2020

Telemus Inc. announces new Chairman

Telemus Inc. would like to announce the appointment of Lieutenant General Michael Barbero (US Army Retired) as the Chairman of Telemus Inc. Telemus is an Ottawa, Canada based business that develops, builds and delivers non-ITAR Electronic Warfare (EW) systems around the World and is an industry leader in ISR/EW systems with over three decades of industry experience.

Lieutenant General Michael Barbero (US Army, Retired) has served in a wide variety of leadership assignments and has commanded forces at every grade, from Lieutenant to Lieutenant General. While a General officer in the US Army, he spent 46 months in Iraq over 3 separate combat tours of duty.

General Barbero possesses unique experience in leading large and complex organizations. His final military assignment was Director, Joint Improvised Explosive Device Defeat Organization. He was responsible for leading the Defense Department's actions to rapidly provide all counter-IED capabilities, with a special focus on Electronic Warfare capabilities.

In his post-military career, he has built a successful international consulting and business development practice.

James Rose, General Manager, Telemus Inc..." We are delighted with the appointment of Michael Barbero to the position of Chairman. Michael is a proven, experienced leader with extensive contacts in the defence and security sector across the globe. He will be a great help in defining Telemus' strategic direction and growing the business"

Lieutenant General Michael Barbero (Retired), Chairman Telemus Inc. "I am very pleased to join Telemus as I believe that we have unparalleled technology and products that can support NATO and non-NATO countries requiring modern Electronic Warfare systems and capabilities"
