YoYo WORKS

Design. Purpose. Partnership.

That's what makes YoYo WORKS

YoYo Works is the trade exclusive partner for architects, designers, specifiers, and dealers who need premium, adaptable furniture systems for today's dynamic workspaces.

We unite Scandinavian design heritage with UK innovation to deliver precision engineered solutions from FlexiFormat height adjustable workstations to reconfigurable pods, acoustic booths, and modular wall systems each designed to balance movement, flexibility, and intelligent design for performance and wellbeing.

Our commitment to the circular economy ensures every product combines sustainability with enduring quality, adapting effortlessly as workstyles evolve.

We know your projects depend on more than great products they depend on execution. That's why we provide:

Expert Support

Fast quotes, detailed technical guidance, and custom finish options to bring your vision to life.

Predictable Timelines

Consistent lead times and reliable delivery on standard stock, so you can plan with confidence.

With YoYo WORKS, you get purposeful design, a trusted trade only relationship, and a seamless service experience .

Scandinavian Height Adjustable Workstations

At YoYo WORK's, we help architects and designers shape agile, intelligent workspaces.

Explore the new generation of height adjustable workstations, blending Scandinavian elegance with precision engineering. Designed for professionals who demand ergonomic performance, visual impact, and elevated design.

UK-Manufactured Office PODs and Booths

Modular, mobile, and built for change our UK made POD's and Booths adapt to evolving workspace needs.

Create private, high-performance spaces for calls, meetings, or focused work fixed or mobile, reconfigurable, and sustainably made. Custom finishes, integrated lighting, and optional cable-free power support agile teams with ease.

Crafted in Britain: Next-Generation Acoustic Walls

Good design isn't just how it looks — it's how it works.

Modular acoustic walls that divide, zone, and adapt perfect for quiet focus, collaboration, or media setups. Made in the UK with custom finishes, integrated power, and cable-free mobility for bold, future-ready workspaces.

Colour is the New Specification.

In a world of beige, we're built for precision. We don't do "close enough." We do RAL.

Two Clear Paths to Perfect Colour

Standard Colours (Immediate Availability)

Ready to ship with timeless appeal:

Black - Timeless sophistication | **White** - Clean, contemporary appeal | **Silver** - Modern metallic elegance.

Full RAL Range (Unlimited Customisation)

When specifying furniture for today's dynamic workspaces, colour isn't just aesthetic, it's strategic. The Flytta range delivers height-adjustable performance with a streamlined colour offering that puts creative control firmly in your hands: choose standard colours for speed, or unlock unlimited customisation with RAL precision.

Why RAL Matters for Your Specifications:

- **Precision Matching:** Each RAL code represents an exact colour formula, ensuring your vision translates perfectly from concept to reality
- **Global Consistency:** RAL colours remain identical whether specified in London, Stockholm, or Sydney
- **Professional Reliability:** No guesswork, no "close enough", just precise colour delivery every time
- **Design Continuity:** Match existing elements or create cohesive colour schemes across multiple furniture pieces and architectural

Professional Support:

Our specification team works directly with architects and designers to ensure seamless project delivery.

Ready to Specify?

- **Standard Colours:** Black, White, Silver - Available for immediate quotation and standard lead times.
- **RAL Colours:** Unlimited possibilities with professional grade colour matching MOQ and 7-8 week lead time applies.

FlexiFormat – Design Without Boundaries

When every project is different, why work within the same limits?

FlexiFormat is the workstation system built to liberate your creativity – engineered for those who want choice, control, and competitive edge.

Total Adaptability

From leg profiles to sidebars, feet to brackets – every element flexes to your specification. Circular, square, or rectangular columns. Standard or sliding tops. Slim, sculpted, or solid feet. Privacy screens or clean open lines. No detail is fixed, every option is in play.

Win More Projects

FlexiFormat turns adaptability into advantage. It allows you to present multiple design solutions from a single range – aligning perfectly with client vision, budget, and technical demands. Where others show limits, you show possibilities.

Engineered for Architects & Designers

Created in Sweden with precision steel and modular intelligence, FlexiFormat combines aesthetic freedom with proven durability. It's as robust in performance as it is elegant in design – a system you can specify with confidence.

Stand Out, Stay Ahead

In competitive tenders, small details decide the outcome. FlexiFormat ensures you never compromise. It's the difference between “off-the-shelf” and “designed to win.”

Why FlexiFormat Works

- **Infinite design language** – customise profiles, proportions, and finishes.
- **Project-ready versatility** – tailor to corporate HQs, agile hubs, or education spaces.
- **Seamless modularity** – one system, countless expressions.
- **Proven reliability** – Swedish engineering, UK supply chain, consistent delivery.

When every project demands something unique, FlexiFormat gives you the freedom to deliver – without limits.

FlexiFormat isn't a desk range. It's a specification strategy.

FlexiFormat: Because One Solution Never Fits All

COLUMNS (LEGS)

FlexiFormat Columns let you tailor each project: choose leg shapes—rectangular, square, or cylinder—and configure in “BIG Up” or “BIG Down” formats.

This flexibility ensures the right aesthetic and proportion without compromising stability, performance, or Swedish-engineered precision

Rectangular
BIG Down

Sliding Top
680mm

Sliding Top +
Screen Bracket 780mm

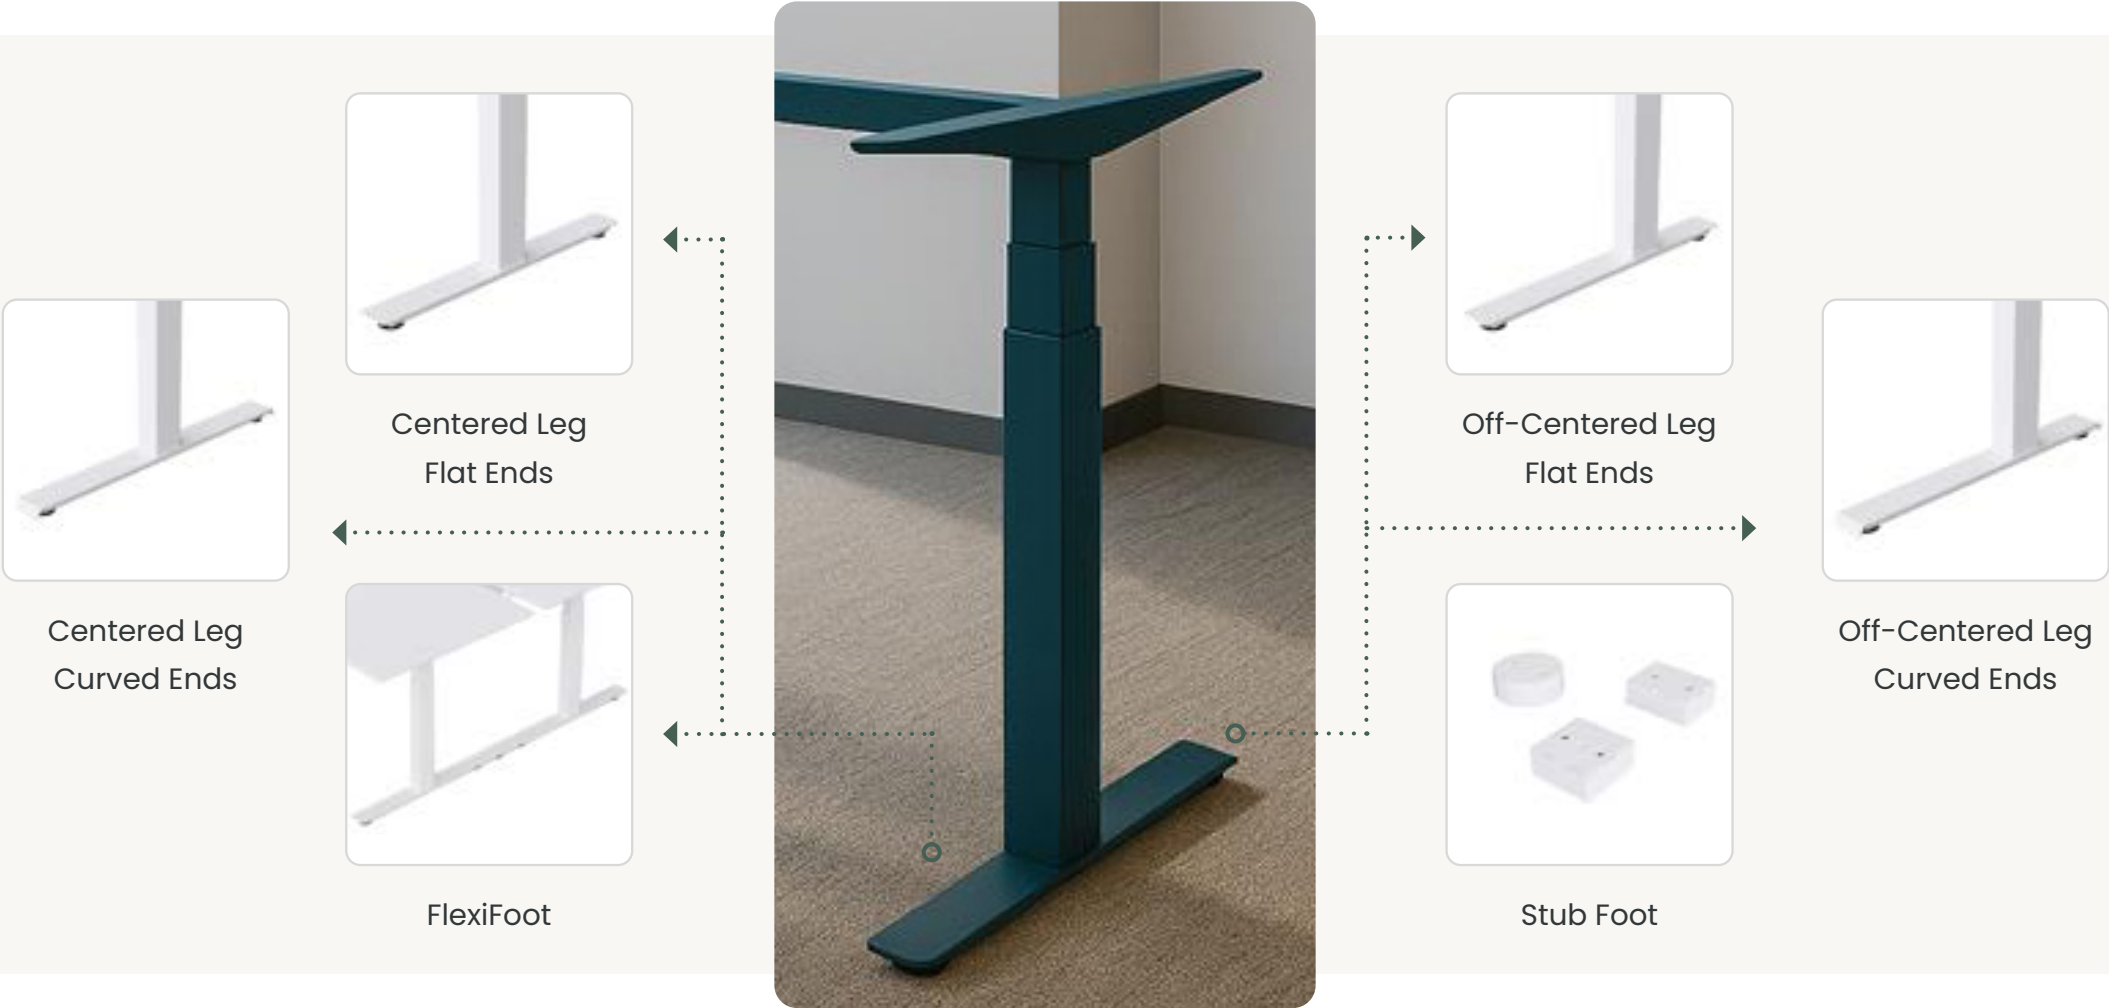

Off-Centered
680mm

FlexiFormat: Because One Solution Never Fits All

FEET

Feet options to give you complete design flexibility — from centered or off-centered legs with flat or curved ends, to versatile FlexiFoot and Double Desk choices.

Each option balances aesthetics and function, ensuring stability and visual harmony.

BRACKETS

Wall Brackets extend functionality by supporting **Privacy Screen Brackets** or **Fixed Wall Brackets**. Designed for versatility, they enable smart division of space, adding privacy or structure while maintaining the clean, modular aesthetic of the Flytta range.

RAL Finishes

Flytta puts colour firmly in **your control** — select timeless Black, White, or Silver for speed, or unlock unlimited RAL precision for tailored creativity. Guaranteed consistency and flawless execution, delivering design freedom for every workspace project.

Sustainability

The YoYo WORKS range of products are all designed, sustainably sourced and sustainably manufactured in the United Kingdom and Europe

Circular Responsibility

We help partners create agile, sustainable workspaces with furniture designed to support a circular mission and minimise environmental impact.

Recycled & Sustainable Materials

Desk frames use 26% recycled steel. Pods are made from 100% recycled fabric, hardwood ply, and water-based adhesives.

Refurbishment Program

Extend product life with certified, cost-effective refurbishment:

- Services include powder coating, upgrades, and motor replacements
- Reboxed to order, with 5–10 year warranty options

WEEE Compliant

Zero-landfill recycling with full traceability:

- Official WEEE disposal with tracking ID
- Fully recyclable steel and electronics

FSC Certification

British-made desktops are FSC certified, ensuring sustainable forest practices.

Eco Packaging

100% cardboard packaging – no plastics or polystyrene.

Solar Power

Our factory and warehouse run on solar energy.

Environmental Certification

Refurbish

□ Flytta Refurbish. A Sustainability FIRST

Flytta Refurbish. A Sustainability FIRST.

Extend Life. Cut Carbon.

Give your Flytta sit-stand desk frame a second life and the planet a break. The first service of its kind in our industry, keeping high quality frames working longer, cutting CO₂ by up to 80% compared to new production, and guaranteeing reliable performance with a fresh warranty.

Return used frames for professional refurbishment, including:

- Fresh repainting
- Motor replacements
- Component upgrades

Refurbishing instead of replacing can cut CO₂ emissions by up to 80% and extends your customer's warranty saving resources, money, and waste.

Flytta Refurbish – Circular by Design.

- ✓ Certified, ready-to-use refurbished frames
- ✓ Documented new warranty
- ✓ Reduced CO₂ impact (up to 80% less than new)
- ✓ Faster delivery for urgent project needs
- ✓ Flexible upgrade options to match new design needs

Your clients want circular solutions.

Flytta Refurbish delivers.

We're serious about circular design. Flytta Refurbish is how we turn that commitment into real impact, saving resources, reducing carbon emissions, and adding value to every project.

New Parts, New Warranty

- Deep clean and full inspection
- Repaint frames and feet (standard or custom color)
- Replace glides, motors, or worn parts (new warranty included)
- Update software and electronics as needed
- Swap spare parts (power units, cables, etc.)

Fresh Coat, Fresh Start

Our in house powder coating system gives your used desk frames a clean, durable new finish.

Repainting is just one of the ways Refurbish helps extend product life and reduce waste.

Accessories

Cable Tray

Adjustable under-desk tray with drop-down access keeps cables and power blocks neat. Quick maintenance, tool-free fixings, and three frame colour options.

Cable Basket

Steel wire tray keeps cables organised with airflow around power blocks and adapters. Mounts directly under desk using supplied brackets and screws.

Cable Spine

Modular cable spine with weighted base routes cables neatly from floor to desk at any height. Snap-link sections adjust length, with discreet under-desk fixing.

Metal Cable Ports

Solid steel finish with refined edges hides cut-outs, enabling clean power/data pass-through and a durable, scratch-resistant, lasting appearance.

Standard Cable Ports

Durable ABS port with sliding cover conceals clutter. Clean power/data pass-through with smooth lead protection, low-profile flush fit, and quick, installation.

Bluetooth Controls

App control via iOS/Android for raise, lower, and memory presets. Set personal heights, timed sit-stand reminders. Quick pairing with lifetime free Active Working app access.

Accessories

Under Desk Power

Modular under-desk power rails with plug-and-play linking, low-profile brackets, and segregated power/data ensure tidy, fast installs and easy reconfigurations.

On Desk Power

Low-profile rear-desk power module with mains, USB-A, and 65W USB-C PD. Shortens cable runs, speeds hot-desk changeovers, with quick install and tidy rear exit.

In Desk Power

Flush-fit in-desk power module for easy access. Shortens cable runs, lifts adapters, and installs quickly with clamp fixings. Durable bezel suits high-use spaces. Black or White.

Single Desk Screens

Acoustic desktop screens with colour-matched brackets and rigid edge reduce noise, maintain straight runs, and allow quick, uniform desk-mount rework.

Duo Screens

Acoustic divider screens for Duo workstations mount with frame-specific brackets, ensuring cable clearance, reduced distractions, and a clean, consistent bench look.

Modesty Panels

25mm modesty panels in matching finishes provide privacy, conceal cables, add rigidity, and fit quickly with discreet brackets for desks/benches.

Accessories

Deluxe Monitor Arms

The Deluxe Monitor Arm installs in minutes with top fix or bolt fitting. Spring-assisted movement, quick-release VESA, and cable management suit 17"-32" screens.

Standard Monitor Arms

Standard Single/Dual Monitor Arm combines style and versatility with aluminium build, tilt/rotate flexibility, cable management, and quick-release VESA for 17"-32" screens.

Caster Wheels

Hooded, braked castors transform desks into mobile workstations with smooth rolling, locking brakes, anti-snag design, and quick fit or retrofit.

Standing Desk MATS

Anti-fatigue mat with high-density cushioning reduces strain, promotes movement, and features bevelled edges, castor-friendly design, non-slip base, and wipe-clean surface.

yoyoworks.co.uk

Under Desk Storage

Mobile pedestal with lockable, soft-close drawers and anti-tilt safety. Durable finish with castors enables quick workspace moves and reconfiguration.

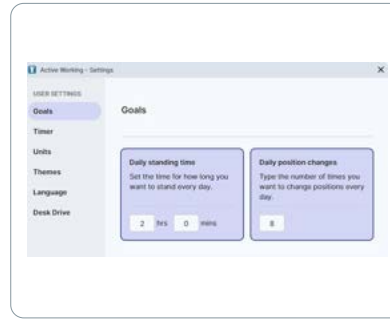

Adjustable Cable Management

Cable Management System for height-adjustable workstations includes trunking, snakes, spines, and fittings to organise cables and complete stylish setups.

SMART Active Connect

Bluetooth connectivity & App

Experience the freedom to control your Flytta desk like never before with Active Connect – our Bluetooth-enabled smartphone app that puts effortless movement and wellness at your fingertips.

Easily customize and save your perfect sitting and standing heights, so you can switch positions with a single tap.

Stay energized throughout your day with smart reminders that encourage healthy sit-stand habits.

Whether you prefer to use Bluetooth alone or alongside the traditional hand control, Active Connect adapts to your workflow with seamless convenience.

Designed exclusively for the Flytta range, this cutting-edge technology works flawlessly with both Android and iOS devices – bringing smart ergonomics to your workspace without the hassle.

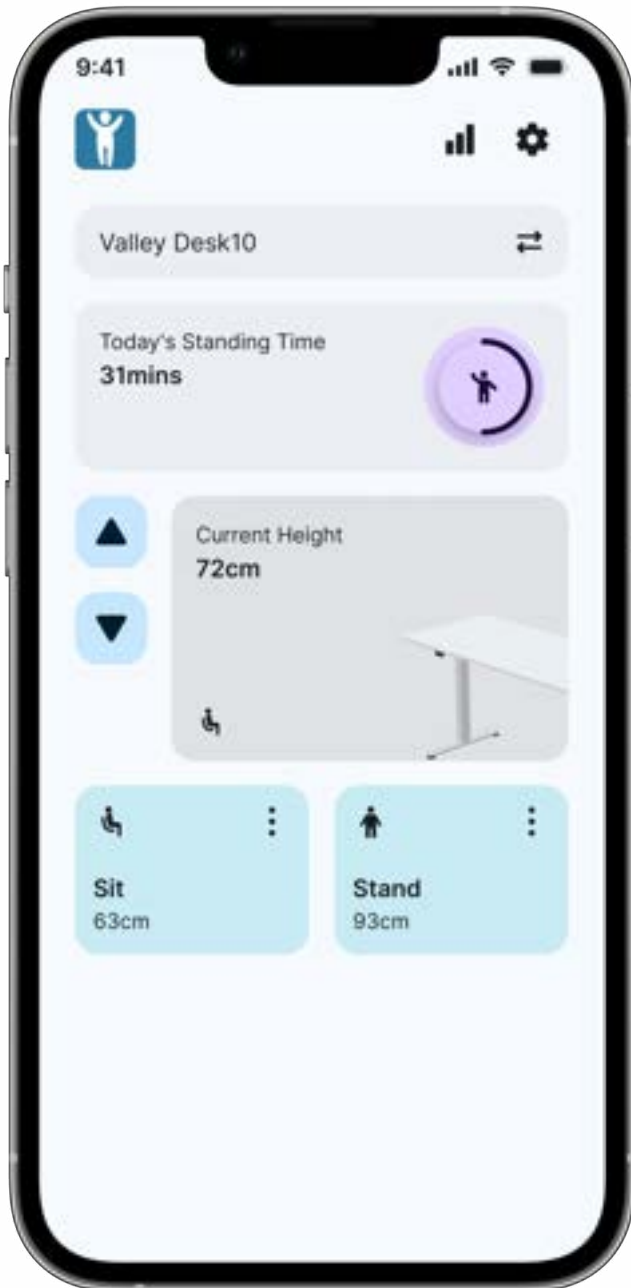

Elevate your workday

Boost productivity

Embrace movement.

All with Active Connect.

Nudges & Reminders

Gentle on-screen prompts keep you moving. Set your preferred frequency to get timely reminders to stand, stretch, or change position – helping boost energy, focus, and wellbeing.

☀️ Time To Rise And Shine!

Get on your feet! Standing up perks up your body and mind.

Dismiss **Remind Later** **Stand up**

😌 Sit Down And Relax

Time to sit down and relax for a bit. Your body will appreciate the change in position!

Dismiss **Remind Later** **Sit Down**

🎯 Half Way There, Keep Going!

Great job! You're halfway to your daily goal. Let's keep Switching it up.

Dismiss **Remind Later** **Stand up**

🏆 Goals Achieved, Keep It Up!

Congratulations! Remember, even when you've hit your targets, you can switch up positions for better ergonomics

Dismiss **Remind Later** **Sit Down**

Active Working App

Lifetime Subscription to boost usage, track performance & improve health

Move More @Work

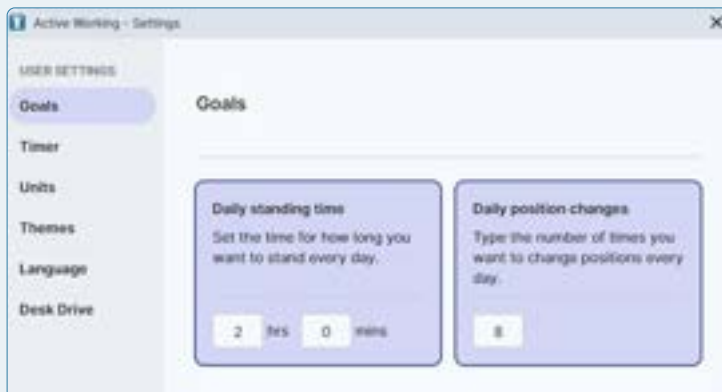

Connect your desk to the Active Working App using the Active Connect Bluetooth dongle to unlock lifetime access and full functionality.

- Set-up desk heights for sitting/standing
- Define goals and track performance (inc calorie burn)
- Set Timer prompts to remind you to “change position”

Download Active Working® App to PC, Phone and/or Watch from relevant Microsoft, Apple or Android App Stores

Set Goals

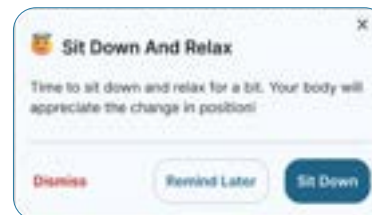

Set personal goals for both **standing time** and **position changes**. This will determine the **reminder messages** to keep you active throughout the workday, thereby improving well-being and boost productivity.

Manage Desk Heights

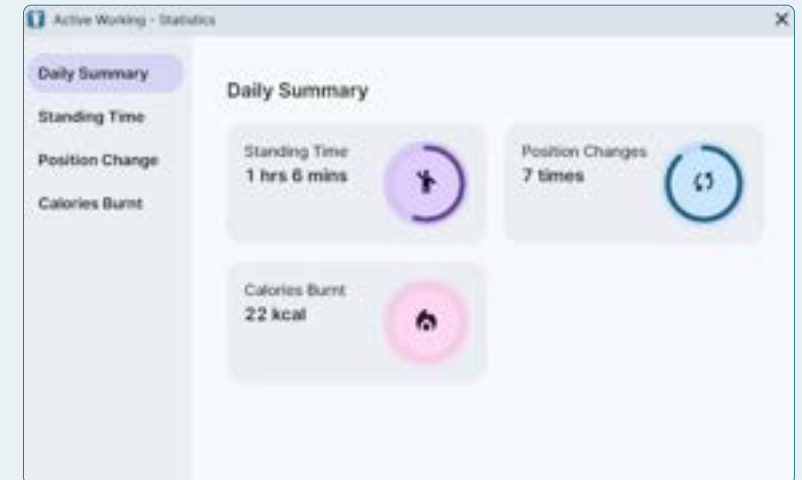

Nudges & Reminders

Track Movement & Performance

Gain insights into your daily, monthly, and annual activity with simple analytics. Improve ergonomics and health with real-time tracking of:

Yo-Yo Wall

Mobile Adaptable Acoustic Walls for flexible workspaces.

Acoustic WALL

Divide Space. Work Smarter.

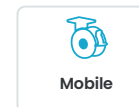

Create calm, focused spaces with this high-performance mobile partition. Designed to absorb sound and reduce distractions, it's the flexible solution for noise control—no construction required.

Features

- Fabric-wrapped, high-density acoustic core
- Excellent sound dampening performance
- Fabric made from **100% recycled materials**
- Recessed handle for **smooth mobility**

Specifications

Dimensions	W 1200 x H 1900 x D Base 680 / Top 450mm
Battery Power	Standard: 240Wh, 5hr full charge Enhanced: 518Wh, 7hr full charge Deluxe: 230 Wh, 9hr full charge Fast charging, Energy saving mode (auto standby), High energy efficiency (over 93%)
Sustainability	Fabric - Made from 100% recycled materials Carcass Frame - FSC certified Adhesives - Water based Certifications - ISO 9001 - Manufacturer ISO 14001 - Sustainability FISP - Furniture Industry Sustainability program

Collaboration WALL

Divide Space. Work Smarter.

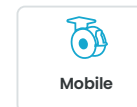

Bring ideas to life—anywhere. This mobile, acoustic WALL supports both spontaneous creativity and planned teamwork, with a stowable whiteboard that keeps the space tidy and focused.

Features

- Detachable whiteboard mounted with strong magnets
- Optional second board on reverse side
- Built-in storage maintains acoustic performance
- Locking castors and recessed pull handle

Fabric Finishes

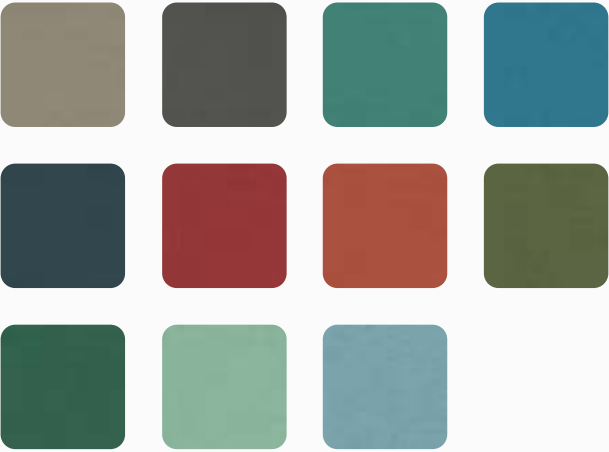

We source most of our fabrics from Camira, a British company that produces fabrics globally. We hold stock of X2, Quest and Oceanic sustainable fabrics made from post-consumer plastic and natural fibres.

X2

QUEST

OCEANIC

Fabric Finishes

Key Benefits

- ✓ **Environmental Sustainability**
By using post-consumer plastic waste, Camira is reducing the amount of plastic waste that ends up in landfills and oceans. This helps to conserve natural resources and reduce greenhouse gas emissions.
- ✓ **Durability**
Can withstand wear and tear and are less likely to need replacing. This reduces the amount of waste generated from discarded fabrics.
- ✓ **Aesthetics**
Available in a variety of colours and textures, allowing for customization and versatility in design.
- ✓ **Performance**
Stain resistance, flame retardancy, and easy cleaning.
- ✓ **Health and Safety**
Produced using non-toxic materials and processes, making them safer for people and the environment.

ACTIVE WORKING SEMINAR
How to combat the "Sitting Disease" in the office

Gavin Bradley
Active Working UK

Active Working UK is a not-for-profit organisation that works to improve the health and wellbeing of the UK workforce by promoting active working practices in the workplace.

Active Working Seminar

A Personal Message from Gavin Bradley

Since 2014, I've been on a mission to change the way we work – helping organisations, designers, and dealers turn the science of “active working” into healthier habits, smarter workplace design, and measurable value for clients.

Inspire. Educate. Activate.

The Active Working Seminar is a fast-paced, CPD-accredited 45-minute session designed for workplace leaders, architects, designers, and dealers. Delivered by myself – founder of **Active Working**® and the **Get Britain Standing**® campaign – it turns awareness into action, showing how design decisions can actively shape healthier behaviour.

Did you know that **95% of sit-stand desks are underused?** Without behavioural activation, even the best-designed offices risk becoming sedentary. This seminar shares proven strategies that help clients unlock true value – boosting desk usage up to four times.

What you'll gain:

- **Design Intelligence:** Align active working with WELL, Fitwel, and ESG goals.
- **Client Value:** Evidence-based approaches to enhance wellbeing and performance.
- **Sales Catalyst:** A ready-made content piece to support SMART Active Desk rollouts.

Who it's for:

- **Architects & Designers:** Create movement-driven, wellness-centred spaces.
- **Dealers & Resellers:** Go beyond selling furniture – deliver a behaviour-change platform.

Trusted by:

Unilever | Boston Consulting Group | Siemens | Capita | Conran & Partners | Oktra | Morgan Lovell | Workplace Futures Group | Wagstaff Interiors

Format: 45 minutes, in-person or virtual. Free of charge when paired with a SMART Active Desk demo (limited availability).

I'd love to help you build stronger, healthier, and longer-lasting client relationships.

Healthy thanks,

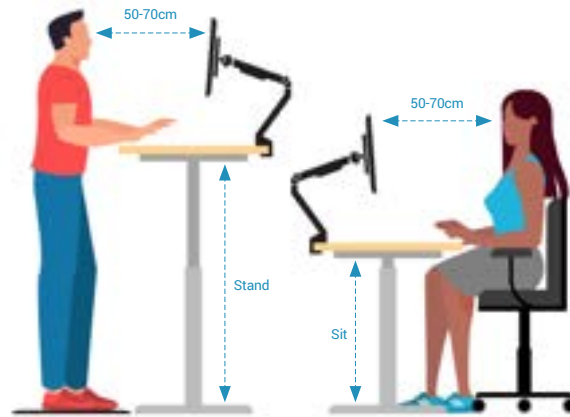

Gavin Bradley
Managing Director

Active Working – The Basics

Posture and Positioning

- Alternate sitting and standing regularly
- Move every 30 mins; stand for at least 2 hours daily
- Keep shoulders straight, neck up
- Movement reduces muscle fatigue and pain

Head & Wrist Position

- Keep screen 50–70cm away; eyes on top third
- Wrists at or below elbow height; elbows at 90°

Why Movement Matters

- 1. Mental Health** Boosts circulation, oxygen flow, and overall energy.
- 2. Physical Health** Supports posture, muscle tone, and joint health – from brain to feet.
- 3. Productivity** Small movement changes improve focus and well-being. Take frequent 'mini breaks' to stand, stretch, or move.

Activate your body

Increase your metabolic rate

Break down fats

Reduce blood sugar levels

Boost oxygen flow to your brain

Office workers sit for an average of **10 hours per day**, with **70% of this sedentary time occurring at work**. Prolonged sitting significantly increases health risks.

For better mental and physical health, it's essential to **switch between sitting and standing every 30 minutes** to stimulate internal organs and improve blood and oxygen circulation.

Public Health England commissioned **Active Working C.I.C** to convene international experts in sedentary behavior and physical activity to assess the scientific evidence on the impact of prolonged sitting in offices. Their **2015 Expert Statement**, published in the British Journal of Sports Medicine, recommends that desk-based workers spend **2–4 hours per day standing and engaging in light movement** to reduce health risks and improve well-being.
