

NT Factor® EnergyLipids Powder

Maintain Vital Energy

Item # 76710
150 grams powder

The Possible Benefits of NT Factor® EnergyLipids Powder, a Food Supplement

- Proprietary phosphoglycolipids researched and blended to optimise cellular uptake and membrane utilisation
 - Patent-pending, scientifically selected ratios of phosphatidylcholine, glycolipids, and other phosphatidyl nutrients
 - Supports the structural vitality of cellular and mitochondrial membranes, including normal membrane permeability and potential and ATP energy production
 - For the first time, available as a separate ingredient for high potency supplementation
 - NO Ephedra, caffeine, sugar, herbs, gluten, dairy or other stimulants
-

Description

NT Factor® EnergyLipids Powder is a food-based supplement that supports the structural vitality and permeability of the body's cellular and mitochondrial membranes, thereby supporting healthy energy. Patent-pending **NT Factor® EnergyLipids Powder** is the “secret ingredient” in our other NT Factor® formulas, and is now available by itself for the first time. It contains a variety of phosphoglycolipids, in proprietary and scientifically selected ratios of phosphatidylcholine, glycolipids, and other phosphatidyl nutrients, researched and blended to optimise cellular uptake and membrane utilisation to support optimal membrane permeability.

These polyunsaturated phosphoglycolipids have been validated in clinical studies to support the structural vitality of the membranes in the body's cells and mitochondria, including normal membrane potential and ATP energy production. Healthy cellular membranes support nutrient absorption and waste removal, cell communication, enzymatic reactions, and hormone sensitivity.

NT Factor® EnergyLipids Powder is the heart of a 3-part nutrient complex, simply called NT Factor®, that is utilised in three other formulas: **NT Factor® Healthy Curb®**, **NT Factor® Healthy Aging**, and **NT Factor® Advanced Physicians Formula**. In addition to the **NT Factor® EnergyLipids Powder** phosphoglycolipid blend, NT Factor® contains freeze-dried Bifido and Lactobacillus friendly bacteria, and foods and nutrient extracts that may provide nutritional support (prebiotic activity) for the probiotics.

For those already taking a good program of vitamins, minerals, and antioxidants, we now offer **NT Factor® EnergyLipids Powder** proprietary phosphoglycolipid blend, alone for the first time. **NT Factor® EnergyLipids Powder** may be taken in water or juice, taken with room-temperature foods, or added to other powdered formulas, such as **ProGreens® #51540** and **ProBerry Amla™ #56550**.

NT Factor® EnergyLipids Powder contains NO Ephedra, caffeine, sugar, herbs, gluten, dairy or other stimulants.

Serving Size: ¼ Teaspoon (1.25 grams)
Servings Per Container: 120

Amount Per Serving:

NT Factor® Proprietary Blend (soy lecithin extract)	1.087 g
Phosphatidic acid (PA)	
Phosphatidyl-choline (PC)	
Phosphatidyl-ethanolamine (PE)	
Phosphatidyl-glycerol(PG)	
Phosphatidyl-inositol (PI)	
Phosphatidyl-serine (PS)	
Digalactosyldiacylglyceride (DGDG)	
Monogalactosyldiacylglyceride (MGDG)	

Other ingredients: Fructooligosaccharides (FOS), pantethine, sodium borate.

Suggested Use: As a dietary supplement, ¼ teaspoon two times daily, or as directed by a healthcare practitioner. A larger dose of ½ teaspoon two times daily may be taken during an initial one to two month loading period. May be mixed with water, juice, or food.

Caution: Sensitive individuals are recommended to start with a small dose and build according to tolerance
